Explorers Full Year Programme Plan

With contributions from 1st Cathays al Huda, 304th Birmingham, Waltham Forest, 5th Seven Kings and 11th St Marylebone

As-salamualaikum

Welcome to MSF's first Explorer Full Year Programme Plan! This plan has been curated by Explorer leaders from Units across the country who deliver amazing Explorer programmes week-in, week-out!

This year-plan provides a basic skeleton for a high-quality Explorer programme, but make sure you fill it with your wealth of experience, wisdom, and enthusiasm that make you a leader! It does not necessarily focus on the Explorer badges, as we know that these can be hard to deliver. TSA are currently reviewing the Explorer Activity badges and MSF are also in the process of creating activity badges.

May Allah bless all leaders working hard to provide positive experiences for young Muslims through our Scout programmes. We ask that Allah allows us to be inspiring role models for our Explorers, and that He grants us the ability to provide an enriching and holistic experience, that ultimately brings them closer to Him and makes them active contributors to the Ummah. Ameen.

Dragons' Den	Brief: - Provide the Explorers with a brief to work towards in their patrols, it can be something very specific or quite vague (for example: design a product that will make it easier for people with limited mobility to participate in camps or design a pair of branded shoes for our Explorer Unit that have a unique Scouting feature). Time to Prepare: - Allocate a set time for the Explorers and be specific about what you want to see in their presentations. Do you want to see prototypes or do you just want to hear about the idea? They should be asked to include financial projections in their pitch. Pitch: - At the end of the allocated time, each Patrol should present their pitch to the 'Dragons' (Explorer Leaders or Parents) who will score their pitch on an agreed criteria. Top Tip: - If you are feeling ambitious, you could reach out to local businesses and ask them to be the Dragons, you could then keep the briefing very vague and have the Explorers come up with business proposals that local businesses could potentially invest in.
